

## CARD GAMES Stage 6

- Make two piles of cards. Two players have a pile each. Each player flips one card one at a time. Quickly add the numbers together or subtract the bigger number from the smaller number.
- Make three piles of cards. Flip one card from each pile one at a time. Quickly add the numbers together or add two cards together and subtract the bigger number from the smaller number.
- Make pairs of cards that equal 15 (or 11, 12, 13, 14, 16, 17)
- Place a 6, 7, 8 or 9 facing upwards. Flip over the cards one at a time to practise your addition facts.
- Flip over the cards one at a time. Quickly multiply the number on each card by 2, 3, 4, 5, 6, 7, 8, 9 or 10.
